

Simple-to-choose-and-use homeopathic medicines for your beloved pets

Rapid, reliable relief: Simple Medicinals provides a breakthrough collection of compound formulas that stimulate the body's natural healing response to provide rapid, reliable relief from common conditions and discomforts experienced by pets.

Clean & natural: All of our formulas are suspended in a base of purified water, GMO-free grain alcohol, and glycerin for good taste.

Easy to administer: Our revolutionary spray delivery system provides the most modern, effective, efficient method for administering medications. No aggravating drops or pills!

High-quality, high-consciousness: We are committed to sustainable, Earth-friendly thinking in every aspect of our business – from reducing fossil fuel waste in production to increasing availability of affordable, effective medicines for people and their pets.

Affordable. Our homeopathic oral sprays for pets provide some of the most inexpensive and effective medicinal choices available for pet care today.

Orals sprays taste great and are simple to administer

While putting tablets under the tongue is standard protocol for most homeopathic medicines, Simple Medicinals embraces a newer, faster, more effective protocol. Compared to tablets, our oral sprays are cleaner (no artificial binders or fillers), more pure (a 100% dose versus 1/8 that amount in a tablet-based dose), and faster-acting. By spraying a 100% dose directly into your pet's mouth or water dish, the healing remedies enter the body immediately and bypass the digestive system which can slow absorption and degrade ingredients. Pets and pet owners everywhere agree – this medicine tastes great and is super simple to administer!

Something for the health of every pet in your life

Stock your pet's medicine chest with the homeopathic oral sprays you might need. Then, you'll be prepared to relieve common conditions and discomforts quickly, naturally, and effectively, without side effects.

Anti-Anxiety/No Stress For relief from symptoms of anxiety & stress, such as nervousness and hyperactivity or environmentally induced stress

Arthritis For relief from symptoms of arthritis, such as pain, stiffness, lameness, or inflammation of the joints

Bladder Control For relief from symptoms of urinary incontinence, such as leaking and "accidents"

Dry Skin For relief from symptoms of dry skin, such as severe itching, or deeply cracked, rough, dry, or scaly skin

Flea Bites For relief from symptoms of flea, tick, or other insect bites, such as itchy, irritated skin

Healthy Ears For relief from symptoms of ear infection, such as shaking of head and ears; constant scratching and rubbing at ears; foul smell or discharge from ears

Healthy Eyes For relief from symptoms of weak, aging eyesight, such as swollen, red, inflamed eyes or eyes with mucoid discharge

Healthy Gums & Teeth For relief from symptoms of plaque buildup, such as mouth pain, dental caries, and mouth odor; and general health of teeth and gums

Healthy Weight For relief from symptoms of excess weight gain

Hot Spots For relief from symptoms of hot spots, such as red and oozing or dry and flaky skin

Motion Sickness For relief from symptoms of motion sickness associated with travel, such as nausea, vomiting, and diarrhea

Parasite For relief from symptoms of internal parasitic infection, such as flatulence, nausea, bloating, restlessness, and malnutrition

Skin Allergies For relief from symptoms of chronic airborne allergies, such as dry, flaky skin, constant chewing, and scratching

Stop Itch For relief from symptoms of itching, such as constant scratching and chewing

Upset Stomach For relief from symptoms of gastrointestinal imbalance, such as vomiting after eating, gas, diarrhea, and mild constipation

Urinary Tract For relief from symptoms of a weakened bladder or urinary tract infection, such as incontinence, restricted urine flow, or leaky bladder
